As a Maintenance Technician Level 2 you will be joining a dynamic team at a growing manufacturing company as a member of the maintenance department. This is a hands-on shop floor position that is responsible for troubleshooting, repairing, and preventative maintenance of our mechanical and electrical systems and machinery. Working experience in 2 of the following areas with basic knowledge of the others is required:

- Mechanical systems
- Hydraulics
- Pneumatics
- Fabrication
- CNC Machinery
- Electrical systems (power, controls, PLC)

A successful candidate should have about 3+ years of education and/or work experience in a maintenance related field. Die casting or foundry experience a plus but not required. We are willing to train the right team member in less proficient areas, so the candidate must be willing to learn new skills to grow within the team. The candidate must have a positive attitude, and be able to work effectively in both team and individual settings. Must provide own tools/toolbox.

About Rheocast: Since 1977, Rheocast has supplied original equipment manufacturers with high-quality brass and aluminum high-pressure die castings.
